PROFILE

2nd-year Artificial Intelligence Engineering student at UdeSA. I'm interested in robotics and applied AI, and I learn by building: this year I wrote the mission module of the robot that placed 3rd at JAR 2026. Open to internships for 2027.

EDUCATION

Universidad de San Andrés 2025 – present
Artificial Intelligence Engineering
- Abanderados Argentinos merit scholarship
- GPA 8.92 / 10, ranked 6th of 87 in the program (as of November 2026)

Colegio Nuestra Señora de Nueva Pompeya, Necochea
High school, graduated 2024
- Primer escolta (flag-escort honor for top grades)
- Overall GPA 9.84

PROJECTS

TARS, autonomous search-and-rescue robot · 3rd place
Challenge JAR 2026, team of 5
- Designed and implemented the mission module in ROS 2 / Python: the state machine, the covariance-based report policy and the trip back to base in legs over the costmap.
- In qualification we placed 3rd of 12 teams, with 3 victims reported in 147 s, 2-10 cm from their center.

Académica
Desktop app (Tauri/Rust + React) with an Android tablet app (Kotlin)
- It has an AI voice tutor that looks at the page, answers out loud and draws on it. I use it every day.

Website for the Parroquia Madre de los Emigrantes
Next.js + Firebase, in production · santuarioemigrantes.org
- It has an admin panel so the staff can edit it.

Engine for the game Y
MCTS with UCT + RAVE in Python
- Ranked 6th of 45 in the course ranking.

Adaptive traffic light
YOLOv8 + multi-agent RL (MAPPO)
- With a C++ safety layer.

COMPETITIONS

- **Olimpíada Matemática Ñandú (math olympiad)**: National round in La Falda, Córdoba, in 2018 and 2019.
- **Olimpíada Matemática Argentina (OMA) (national math olympiad) and geometry tournaments**: Took part during high school.
- **Torneo Argentino de Programación (TAP) (national programming contest)** · 2025: Participant.

EXPERIENCE

Student assistant 2026
UdeSA Library, Technical Processes
- General support to the area: labeling books, entering records into the library system and Excel control sheets.

SKILLS

Languages	Python, C/C++, TypeScript, Rust, Kotlin
AI/ML	PyTorch, scikit-learn, XGBoost, NumPy
Robotics	ROS 2, Nav2, OpenCV, Gazebo
Tools	Git, GitHub Actions, Docker, Firebase, pytest

LANGUAGES

Spanish (native) · English upper-intermediate (B2, not certified)

INTERESTS

Football
